Lattimore (1900-1989), the distinguished Orientalist who was ultimately cleared of Sen. Joseph McCarthy's charge that he was Russia's top espionage agent in the U.S., wrote a much-discussed book about his persecution, *Ordeal By Slander* (1950). Here he reminisces about his upbringing and education in China, his editorship of the *Journal of Pacific Affairs*, his role as personal adviser to Chiang Kai-shek during WW II, his tenures as deputy director of the Office of War Information and as director of the School of International Relations at Johns Hopkins. Without rancor, he discusses the professional experiences and writings that were distorted by McCarthy and the "China lobby" against him, including the accusation that he tried to influence U.S. public opinion against Chiang in favor of the Chinese Communists. In Lattimore's decidedly minority view, the Generalissimo was "a great man who did great things," especially his role as rallying point in the war against the Japanese. Compiled by Fujiko Isono from interviews, the memoir contributes to a deeper understanding of Chiang's complex relationship with the Communists during the period of the United Front, before the final phase of the Chinese civil war began. 拉铁摩尔同学真有个性！

没考上牛津，干脆就不念什么劳什子大学了（联想这边厢还在声嘶力竭的比拼高中的一本率，实在汗颜）。

行万里路（不是比喻，真的跑了这么多地方），见各色人等，吃百家饭，学数种语言，看问题一针见血！不过，你如果以为他不好学问的话，可就错大了。...

藉此了解抗战期间美国对中国的态度和政策，很大程度上和从小被灌输的不同。无论从哪方的角度来看，国民党政府在当时确实败得合理，中共以其开明赢得世人的认可。
