Review

"An indispensable work for those interested in archaeology at all levels." C.C. Lamberg-Karlovsky, Choice "Higham is to be congratulated for having integrated an enormous amount of data, based on over two decades of fieldwork in eastern and northeastern Thailand, as well as extensive travels in Southeast Asia and China, into one very readable text." Rasmi Shoocongdej, Crossroads "Higham is to be congratulated for having integrated an enormous amount of data...into one readable text. ...this volume will remain an essential reference for scholars and students for some time to come." Crossroads
