## Product Description

London's West End has a rich and unique collection of theatres, ranging in date from the early 19th century to the end of the 20th; more than fifty are located within an area of two square miles. This book celebrates the working buildings at the heart of the British theatrical industry. Focusing on the theatres in the West End, it looks at their architecture and history as well as examining what it is that constitutes a West End Theatre.
