出版时间:1990-11-01

装帧:Paperback

isbn:9780856358609

Richard Hooker (1553/4-1600) was one of the great theologians of the Church of England. He wrote his major work "Ecclesiastical Polity," at the height of the controversy between Puritan and Catholic interests. It is a book which, with masterly elegance and restraint, defines the middle way of Anglicanism and has remained at the heart of the Anglican Communion. Hooker was sane, noble, sincere and supremely civilized original with a. A classic of English prose, "Ecclesiastical Polity" establishes an Anglican perspective, suspended, as it were by Grace, between Geneva and Rome. One critic describes Hooker as an 'English Aristotle set to music'.

This selection puts the massive work into manageable form. It follows the order of the original and links together the several books with a head-note to each. It reminds us not only of the immense, historical importance of Hooker's writings but also of its continuing relevance in embodying the principal ethos and practice of the Church of England at a time when its values are being called into question, at least within the church itself.
