"Synastry" puts relationships under the cosmic microscope of astrology - offering an insightful perspective on the dynamics that drive all personal interactions. Rod Suskin, the author of "Cycles of Life", blends traditional methods with modern techniques in this introduction to synastry. His step-by-step approach begins with interpreting an

individual's birth chart to pinpoint relationship needs and behaviours. Next, you'll learn chart comparison techniques - involving the elements, inter-chart aspects, planets in aspect, the fifth house, dignities, and other astrological factors - to determine the compatibility and longevity of a relationship. "Synastry" will help you explore many critical issues that affect relationships: communication habits, values, feelings of self-worth, sex drive, life goals, attitudes toward money and children, karma, and more. For the professional astrologer, there is also advice for conducting client consultations with sensitivity and objectivity.
