Hyperion is a novel of remarkable emotional force, poetic sublimity, and enduring influence. This sole novel by the iconic German lyric poet explores the pivotal phases of a poet's life journey, the struggle for freedom, the divinity of nature and love, and the meaning of solitude. Friedrich Hölderlin's gestures toward a higher spiritual unity left their mark on the founding texts of the nineteenth century. Friedrich Hölderlin (1770–1843) has achieved recognition as one of the greatest German poets of lyrical verse. His work had a profound influence on German Romanticism. Ross Benjamin is a freelance writer and translator living in Brooklyn, New York. His reviews have appeared in Bookforum , The Nation , and The New York Times .

实在欣赏不来

-----  
买了大约一年之后才发现早晨的歌受了这个影响

-----  
【补标】  
荷尔德林的小说比起小说，更是一种神性语言的诗性叙述。提坦旧神的光辉与大地洁白的生命之光交相辉映，冥冽忘川河与巍峨伊达山是那苍穹之殿，大地之乡。
