"The BTEC National for IT Practitioners" series has been written specifically to cover the compulsory core units and selected specialist units of the BTEC National

specifications. The suite of books provides core and specialist unit coverage for students following all courses within the new scheme - National Awards, National Certificates and National Diplomas. This DVD offers a complete course for all the units covered in the textbooks, providing all the resources needed by a busy lecturer including template worksheets, schemes of work and classroom activities. It also contains full electronic copies of each book for easy reference. Activities are matched to the compulsory core units and selected specialist units of the scheme. This title is written by a senior subject examiner who is actively involved in teaching the syllabus. It follows a student-friendly learning programme with sample schemes of work, template worksheets, and practical and group exercises.
