"The Woman and the Ape" is the story of a unique and unforgettable couple--Madelene and Erasmus. Madelene is the wife of Adam Burden, a distinguished behavioral scientist. Erasmus--the unlikely prince--is a 300-pound ape. Brought to the Burdens' London home after escaping from animal smugglers, Erasmus is discovered to be a highly intelligent anthropoid ape, the closest thing yet to a human being. Madelene decides to save Erasmus, and between them blossoms a profound affection as deep as any human relationship. A fable for our time, "The Woman and the Ape" poses searching questions about the nature of love, freedom, and humanity.
