"KFYK" is a highly visual, accessible and inspirational learning experience. Lively, engaging text explains the basics of a favourite science subject, zooming in on intriguing aspects illustrated with stunning full-colour photographs."KFYK Reptiles"

introduces readers to the huge range of reptiles that live on land and in water. Reptiles come in all shapes and sizes and many have amazing talents. You can find out why snakes swallow their meal whole, why geckos lick their eyes, and how chameleons catch insects with their tongues. Fun and easy projects will help young readers discover more about reptiles.
