isbn:9780836833720

With an unparalleled array of science topics to choose from, Discovery Channel School Science puts the fascination of the natural world at students' fingertips. Fun, fast-paced, high-interest text and vibrant photography in a varied format bring to life

the wonders of nature as young scientists learn about the important historical figures, ideas, and discoveries that help researchers understand the past and keep science moving toward the future. Activities abound and insights await in Discovery Channel School Science The true superstar of our Solar System is the Sun, and like any celebrity, the Sun attracts other bodies with its strong gravitational pull. Earth is just one of nine planets that revolve around the Sun. And there are lots of moons, asteroids, and other bodies, too.
