From Publishers Weekly When a newspaper story claims that Buddy Boyle's grandfather is a former Nazi, the ensuing chaos threatens the boy's familial ties and a romantic relationship. Ages 12-up. Copyright 1990 Reed Business Information, Inc. --This text refers to the Paperback edition. From AudioFile Jeff Woodman skillfully blends Buddy's personal narrative with a wide range of unusual accents and characterizations. All the while, Buddy's own voice is maturing from its youthful earnestness to that of a harder, more circumspect young man. P.E.F.
