From AudioFile Audio drama is the ideal medium for spooky fun. \"Lights Out, \"
\"Suspense, \" \"The Whistler, \" \"Inner Sanctum\"--these were among the most
popular dramatic programs on '40's radio. The mental exercise that audio gives to
the imagination has more positive effects on kids than the mind-numbing boob tube.
Perhaps that's why, when Disney rereleased some of its postwar kids albums on
cassette a few years ago, they were sold out within weeks of hitting the shelves. In
this instance, even merely serviceable performance does wonders for Stine's hack
writing. Disney has pumped more energy than creativity into the slickly produced title.
It's amiable, briskly paced and safe. Neither parents nor their offspring will find any
unpleasant shocks here. When you give it to your kids, tell 'em to shut their eyes and
give their minds a listen. Y.R. (c)AudioFile, Portland, Maine --This text refers to an
out of print or unavailable edition of this title."

这个机器真的好先进

这robots也太智能了

Read this book in Target for 2 hours or so. I was attracted by the first chapter. I thought it was a horror book but it actually is like a mini version of Jurassic Park. And the ending is so....weird. I would say it's an easy book to read since it's for age 8-13. lol
