Product Description Learning about nature has never been so much fun -- or so easy. Anyone, young or old, who can hold a pencil, brush, or crayon can quickly learn to identify nature with these coloring books based on the famous Peterson Field Guides. Once you have actually identified and colored an image, its filed marks will be engraved in your memory. About the Author Gordon Morrison is a well-known naturalist whose work has been praised by Roger Tory Peterson as "Marvelous, beautiful, excellent . . . Morrison's work is so inspiring that I wish such clear material was available when I was slowly learning ecology. . . . We owe a debt of gratitude to Gordon for his interpretive skills as an artist. He is a superb teacher who uses visual methods." Robert Bateman likened his work to that of Albrecht Durer and Andrew Wyeth. Gordon Morrison lives in North Attleboro, Massachusetts. Roger Tory

Peterson, one of the world's greatest naturalists, received every major award for ornithology, natural science, and conservation, as well as numerous honorary degrees, medals, and citations, including the Presidential Medal of Freedom. The Peterson Identification System has been called the greatest invention since binoculars, and the Peterson Field Guides are credited with helping to set the stage for the environmental movement.
