54372,Night Animals: At Your Fingertips ,Night Animals: At Your Fingertips ,1562932233,Judy Nayer,45.00,15.00,McClanahan Book Company,Mar-92,精装,,,,Night Animals: At Your Fingertips ,From School Library Journal PreS-Gr 2-- These oversized, largely pictorial introductions to animal life include sidebars that provide readers with a randomly arranged assortment of trivia about each species\' appearance or behavior. The watercolor art, while bold and bright, is not in any way distinguished or particularly naturalistic. The two titles focusing on specific habitats are more successful than the others, but none offer geographical references, scales to indicate the animals\' size, or any substantive information. They are primarily to be used for identifying unusual creatures and igniting children\'s curiosity about the world\'s wildlife. --Eva Elisabeth Von Ancken, Trinity Pawling School, NYCopyright
