Editorial Reviews

From Library Journal

Cambridge scholar Tanner sums up two decades of close reading in a series of cogent essays describing Austen's novels in relation to "society, education, and language." Included are revisions of his excellent introductions (for Penguin Books) to *Mansfield Park*, *Sense and Sensibility*, and *Pride and Prejudice*. Much of the commentary is grounded convincingly in traditional interpretation, but Tanner's most intriguing perceptions relate to recent critical speculation, especially in his chapter on Emma Woodhouse as socially "ec-centric" and hence in need of community. Recommended for both scholarly and general readers interested in Jane Austen. Starr E. Smith, Georgetown Univ. Lib., Washington, D.C.

Product Description

Tony Tanner's classic text on Jane Austen addresses the issues that have always occupied the author's most perceptive critics and offers a stimulating analysis of Austen's novels which is now regarded as one of the finest introductions to the author. This revised edition features a new Preface by leading Romantic scholar Marilyn Gaull who examines Tanner's background and places the original work in context, explaining why a reissue of this highly influential text is timely.
