"KFYK" is a highly visual, accessible and inspirational learning experience. Lively, engaging text explains the basics of a favourite science subject, zooming in on

intriguing aspects illustrated with stunning full-colour photographs."KFYK Polar Lands" introduces readers to the poles. Children will meet the people who live inside the Arctic Circle, and the scientists who work in Antarctica. They will discover the incredible diversity of animal and plant life at both poles. They can marvel at polar light shows (auroras) and discover why it is so important to conserve the unique environments of the poles.
