Superannuation is now tax-free for people over 60 and many Australians are demanding a better deal from their super funds managers and advisers. Super Rich teaches readers how to pool their money and assets into the right super structure for a lifelong tax-free income, while retaining control over their wealth and their investing decisions. Readers will learn how to get better deals from financial planners on fees, discover the advantages of self managed super funds and wraps, find out how baby boomers can protect their estates upon death and divorce, and ensure they don't outlive their money.
