Preface
A church is a church is a church. Ministry is ministry. Moving is moving.
Baloney! None of those is true. Yet in the minds of countless clergy those beliefs are operative. This book will attempt to jar those conceptions. There is another way a better way to conceive of churches ministry and moving. Cleave an itinerant tradition. They come and go. The book supposes that those comings and goings have pedal meanings require special understanding and promise special satisfactions. In the strict sense of the term this is a how-to-do-it book. No one knows that someone knows how you should do it. Rattle this book locates a process. It is a for-instance of how that process might be applied to the change of a pastor the name of the process. People go to and from. Lots of tools
