Looking back, I see that I have often moved in the
Wrong direction: I have been a legalist, I have been an
existentialist, and although I have tried to stick to the
Word and ask for an anointing in it, I still have failed to
fully worship God. Therefore, I would like to acknowledge
those people who have been intercessors for me during
the times when I have tried to learn how to worship •

I also wish to acknowledge at this time the people who
have taught me how to appreciate God, to be totally
satisfied in Him. and SO to receive peace • One of these
people is John Piper, and another one is his predecessor,
Jonathan Edwards. They spoke Of the person of Jesus
Christ. They distinguished between religion and the
relationship with our Creator and Savior. I would like to
acknowledge these two men with the deepest respect •

Most of US never appreciate our mothers enough,
though we should. They bore US in pain and then raised
us. We never appreciate the magnitude Of God 7S creative
act that brought everything and everyone into being •

We never think about, let alone appreciate, the amazing
“microchip, ” the zygote, which is a microscopic particle
in our mama’ s tummy nine months before we are
born. This “microchip’ ’ is a single cell yet it contains
more information than. 200 NYC telephone books • I his
information is powerful enough to develop and control
200 types of tissues and integrate them into a functioning

human being.
