Something is about to happen. God is up to something with young people all over North America and around the world. There is a stir in the air. There is a restlessness in the hearts of average church-going teens wanting something deeper. There is an emptiness in the hearts of non-Christian young people wanting to find something real. There is a stir in the hearts of youth leaders wanting something to explode in this generation of young people. There is a cry towards heaven from parents and grandparents all around this world wanting God to do something to intervene in the hearts and lives of this young generation.

Tens of thousands of teenagers are on their knees every morning crying out to God in their Quiet Times. Millions of them are meeting at flagpoles to pray every year. There is a seriousness in the eyes of those who used to be lukewarm believers. Something is about to happen in the schools where the rebellious once took charge. Where rebellion once ruled, righteousness will invade.

Where peer pressure to live an ungodly life used to rule, peer pressure to live a godly, righteous, and holy life will prevail, where immorality and promiscuity used to be the norm, purity, chastity, and holiness will become normal.

People are going to get saved, set free, turned on. Holy fervor and passion for God will explode in the hearts of this generation.

Once you were persecuted and thought weird for praying over your meals in the cafeteria. In days to come, people in schools all across this land will think it strange if you do not pray over your food. It used to be an exception to the rule when a ball player would kneel

and pray before a football game. Soon it will be thought strange if the whole team doesn't kneel and fervently cry out to God before every ball game. It's time to think and dream big because God has a BIG heart for an entire generation. It's time for us to dare to imagine and dream of His coming in and sweeping over this generation with His power affecting every realm of life, Movies geared toward teen rebellion and promiscuity will be unprofitable because teens won't go see
