Product Description

Learn another language the way you learnt your own! As a child, you learnt your own language naturally and enjoyably: now you can learn French vocabulary in the same way.

- Use the unique method perfected over fifty years by the celebrated psychologist and linguist Michel Thomas
- This method works with your brain, helping you to build up your French in manageable, enjoyable steps by thinking out the answers for yourself.
- You learn through listening and speaking – the way you learnt as a child.
- You then pick up the language naturally and unforgettably.

This NEW Vocabulary Course builds on the Foundation and Advanced Courses to increase the number and range of words you will be able to use. Rose Lee Hayden, Michel Thomas' s most trusted teacher, shares her first-hand insights with the author, Hélène Lewis, who teaches French at Bournemouth University, to give you over 1,000 words in a unique and memorable way. The presenter is joined by two native speakers to make sure your pronunciation is perfect, while a booklet shows you the written language.

You'll stick with it because you'll love it!

作者介绍:

Rose Lee Hayden met Michel Thomas in 1982 as a result of her interest in his innovative method and amazing results, and studied German with him. This was the beginning of a long and exciting collaboration, developing his programme and teaching his 'Second Phase' Spanish students. She now lives outside Rome, where she continues to write, teach, and play jazz piano.

Hélène Lewis studied English, French and Russian in Paris and Edinburgh. She is Head of the International Programmes Academic Group at Bournemouth University and teaches French, communication skills and international personal development. She worked for many years in lexicography and has also co-authored a number of textbooks. Her main interests are in teaching foreign languages to non-specialists, developing materials for independent study and e-learning.
