Self-directed work teams when properly implemented enable companies to attain dramatic increases in productivity and product quality. They help people from diverse areas of the company work together more efficiently and compete more effectively with foreign and domestic rivals. The authors all acknowledged leaders in organizational consultation show how their methods have helped TRW, Cummins Engine, General Electric, Blue Cross of Ohio, Hughes T001 and many other companies increase the efficiency of their workers and the value of their end products. Self-Directed Work Teams provides a practical why, what and how for under-

standing and implementing this revolutionary new service and manufacturing concept  
The means for motivating line employees and improving job performance  
A blueprint for increasing employee productivity  
A method that reduces the need for layers of corporate bureaucracy  
In today's dynamic marketplace only the agile and lean survive  
Is your company prepared?  
Self-Directed Work Teams shows you how to boost productivity  
Improve the quality of your product or service and thrive on competition
