suburbanite Judith Singer is titillated when a murder occurs in her Westchester neighborhood. A lecherous dentist is dead and plenty of women in the affluent suburb are suspects. At first her interest in the murder is a matter of idle curiosity but as she learns more about the philandering Lothario she realizes that she has information that is critical to the police investigation. As her frayed marriage continues to fall apart a sexy cop provides Judith with a link to the official investigation and a whole lot more! "Isaacs demonstrates a fine instinct for social comedy -- a wonderful read." -- Booklist "Suburban Long Island marital mores and morals get a riotous going over in this very funny first novel The dialogue is ribald and wisecracking the action fast and furious every step of the way." -- Publishers Weekly Center Point Large Print Edition GENERAL FICTION \$27.95
