Book Description With a touch of craft and a dash of style, throw-outs can become keepsakes. Using easy-to-follow techniques, a box of broken china turns into a gorgeous mosaic clock, milk cartons transform into gleaming Christmas ornaments, and a bunch of faded old blue jeans become a durable yet attractive rug. Trash to Treasure, Book 8 continues the traditions of its predecessors with more than 200 projects, all accompanied by clear, step-by-step instructions, and a full-color photo of each finished project. --This text refers to an out of print or unavailable edition of this title.
