Using authentic material about real companies, this two-level series teaches the basic language and grammar structures that busy professionals need to communicate effectively in international business. A four-skills course with emphasis on speaking

and listening, Global Links meets the needs of low-language level students while acknowledging the high level of sophistication that businesspeople bring to their study of English. Authentic texts, documents, graphs, and charts offer realistic practice models, while the text's international focus provides relevant cultural information for doing business worldwide.
