good point. The problems Of relation- ships between men and women have
puzzled us for a very long time. I m sure all of us have either seen or heard of
beau- tiful relationships that continually grow and expand without becoming
stale or empty. On the other handi we have all seen marriages or relationships
that seemed outwardly per- fecti but suddenly fell apart without any apparent
reason. One mani well-known for his research into the mindi re-

>marked that he and his wife had a very good relationship
but he did not exactly know why. What is it that makes one relationship or marriage succeed and another fail
In talking to and reading about people who have good relationships I have found that most of them acknowledged that something greater than themselves had brought them together. They felt that the success of their relationship was no clue to the use of certain techniques supposedly guaranteed to
