著者:Barrie Thorne

出版者:longmans

出版时间:1982

装帧:

isbn:9780582282650

Book Description This revised edition of the 1982 classic features eight new chapters and an updated introduction to reflect feminist thinking about the family as it has evolved over the last two decades. Situated in the context of what is often referred to as the "family crisis," the essays address issues such as the increase in divorce, employment of married women and mothers, the relationship of poverty to family structure, controversy over access to abortion, the increasing visibility of varied family forms, and debates over the very meaning of "family." --This text refers to an out of print or unavailable edition of this title.
