From Publishers Weekly Fitzhugh (Cross Dressing; Pest Control) moves into Clyde Edgerton and Barry Hannah territory and acquits himself with aplomb in this witty romp through the country music industry. Aspiring country music star Eddie Long has served a hard apprenticeship in honky-tonks across the South, and just as he gets a promising gig in a Mississippi casino, his young wife dies under mysterious circumstances. The cause is actually food poisoning, but before the police get there her lover tries to make it look like a suicide, while her father tries to pass it off as murder. In his grief, Eddie writes a magnificent country song, "It Wasn't Supposed to End That Way," that tops the charts and makes him a superstar. He involuntarily becomes embroiled in the seamy side of the music business, associating with rapacious agents, producers, DJs and a carnivorous groupie, Megan, who

avariciously eyes Eddie's millions while plying him with drugs. A would-be biographer named Jimmy Rogers, who is also the jealous, discarded boyfriend of the greedy groupie, takes the advice of an unscrupulous literary agent and writes an unauthorized biography, which hints that Eddie had something to do with his wife's death and might even be a serial killer. The action and punch lines come at a furious pace, and Fitzhugh tosses in references to Nashville and Bob Roberts, two of the best country music movies. All in all, this is sharp, sassy, read-in-one-sitting, laugh-out-loud literature. (Dec. 1)Forecast: Movie rights for Pest Control and Cross Dressing have been sold to Warner Bros. and Universal Pictures respectively. If a movie ever results, Fitzhugh's stock will instantly rise, but even if it doesn't, he should collect a few more readers with each hilarious outing.
