Amazon.com Deep-six the title and enjoy the responses to a 200-question sex survey completed by thousands of American women of all ages. They candidly dish up memories and fantasies about first times, worst times, best sex, group sex, kinky sex, sex toys, hickeys, orgasms, hot talk, weird spots, forbidden sex, likes, dislikes, and answered prayers. Like the acts it exalts, the book steams at times and stalls at others. But its first-person testimony neatly challenges the notion that great sex, recent or recalled, depends on physical perfection and youth. Surely all these women aren't models--some are bound to be neighbors, pals, and women we see strolling by. Book Description "What your mama wouldn't tell you and your boyfriend doesn't know..." That's what's on
