PREFACE
For several years I have been writing one-minute radio spots. Often people have said "Why don't you publish them?" I have always backed

away because
 these spots were written with specific goals in viewi¼Œ
 such as reading the Biblei¼Œ attending worshipi¼Œ or es-
 tablishing a Christian home. And since they were
 written for radioi¼Œ I didn t think they would hang
 together and make a book.
 But it occurred to me that this approach could
 become a highly interesting and novel way of under-
 standing a book in the Bible. So I applied myself to
writing simplei¼Œ short chapters on Paul s Letter to the
Romans. This book is the result. It s originali¼Œ since it
was not written for radio.
 Obviously Day Brighteners cannot be an ex-
haustive study of Romansi¼Œ nor does it attempt to deal
with some of the deeper issues raised by the text. But
it serves as an introduction to the teaching of this
eru cial epistle. It will take you into the heart of
Christianityi¼Œ for Paul s Letter to Rome is really good
news. The text used is the translation by J. B. Phillipsi¼Œ
which I find to be the most exciting and helpful. You
may read it as any other book or as a daily devotional
guide. You will note a unique manner of
paragraphing to make each reading crisp and clear.
