The end of the search for these answers is provided at least in clarity and conciseness. There are no recriminations or feelings of guilt to be gleaned from these pages. It is the intent and purpose of this small book to encourage every reader to live in accordance with the plainly disclosed simple laws that underline ALL that each comprehends as life. Each segment leads to greater understanding and to simple application that encompasses them in entirety in a few words that guarantee absolute change in your day to day experience. To become is your purpose and your heritage. About the Author "Isness" is the focus to be sought by each individual awareness. As each expands within the process of self-identification, so does the ability to allow the flow of "Isness" to move through their experience. The vibratory rate of the planetary environment and the members of humanity on earth is low enough that this ability is currently virtually inaccessible. To assist willing members on mankind to access the necessary information to provide a way to transcend this current aberrant state, various volunteer awareness points within higher vibrational frequencies have acted as booster stations through those willing to participate on the earth plane.
