In a Nutshell... The Family Guides are a collection of innovative books written especially for parents of kindergarten through elementary age children. More than a series of 12 books about parenting, each book combines stories, discussion starters, and activities to create a practical hands-on resource parents can use to teach healthy living skills to the whole family. Goals of The Series THE FAMILY GUIDES ARE DESIGNED TO BE: 1. A "next step" resource for parents in recovery. Each week in our country literally millions of people participate in recovery groups, support groups, inner child workshops, and/or individual, group, or family therapy. Through these resources they
