<p><font face="Verdana">Bishop's Hill Academy in frigid northern New Hampshire is at best a second-rate boarding school for troubled students, crumbling under the weight of ineffective teachers and an apathetic staff.At worst, it's the center of a dangerous conspiracy, fueled by greed and malice, that will ultimately escalate into unspeakable tragedy....Dr. Jim Hawthorne has taken the job as headmaster at Bishop's Hill, and no one can believe that a prominent psychologist would waste his time on the failing institution.Hawthorne has his reasons-and most of them involve escaping the pain of his wife and daughter's horrific deaths and trying to right the wrongs of his past.But someone is taunting Hawthorne, pulling pranks that become more and more ominous, trying to drive him out-or drive him crazy.A</font></p>
