Teenage sleuth Eddie Fields possesses the unique gift of being able to communicate with ghosts through computers. One foggy night along a seldom used road a mysterious cry for help launches him on a journey of intrigue and adventure. Is the mysterious message merely a prank by a classmate, or could it really be from a desperate spirit on the "other side?" Eddie suspects an old abandoned high school built upon an Indian burial ground may be haunted. But by whom? His investigation uncovers several untimely deaths connected with the school. As Eddie and Professor Harley Griggs, his mentor, search for answers, they discover evidence of a crime which could send shock waves through the small coastal town of St. Andrew. Is there really a

ghost trapped in the "in-between place" seeking Eddie's help? Will Eddie and Harley be able to unravel the mystery holding the key to freedom? The answers await you inside . . . Haunted High.
