Book Description 2, 000 A.D. &#150; A turning point in history? As the world gears up for the advent of a new millennium (a period of 1, 000 years), the Church is looking forward to a far-greater event &#150; the rule of Christ upon this globe. Though we don't know exactly when this period will begin, we do know to look for the signs of His coming. The purpose of 'Life in the Millennium' is to take the fear out of the future by preparing us for the coming of the King. You will want to celebrate all that God has in store for you. Indeed, you will want to stand and applaud God as you realize the significance of the Millennium: &#183; What will life be like in the Millennium?&#183; Will sin and death continue?&#183; What about medicine? Pollution? Animals?&#183; Will there be churches and worship services?&#183; Where will the saints be?&#183; What is the role of Israel?&#183; When is the Rapture of the

Church? Through vivid and sound scriptural exegesis, well-known writer and teacher, Mona Johnian, provides us with fresh insights to answer these important questions.
