In 1991, the first edition of Get Out of My Life by Dr. Anthony E. Wolf, became an enormous success, selling over 300,000 copies. The words of Dr. Wolf were so on target that parents wondered if he had placed tape recorders around their homes. But the world has not stood still-in fact, it is changing faster than ever. And while the classic struggles between parents and teenagers still remain, societal changes have brought about many new ones that parents of earlier generations never dreamed of. Today's parents must deal with such 'new problems' as their children experimenting with the latest recreational drugs; increased sexual activity at a younger age; the Internet; and above all, a world that seems far less safe than ten years ago. Dr. Wolf realized the importance of these ever-evolving issues, which is why he has decided to significantly revise Get Out of My Life. Get Out of My Life provides parents with a new understanding of their teenagers so they will look at them in a whole new light, seeing them as young people on a journey to empowerment. And most importantly, he reassures parents that everything will turn out alright.
