A TRYING<br> TIME<br>ere s just no way to snuggle up to your sweetie and<br> whisper \"Heyi¼Œ wanna try tonight?\"<br> I tried to come up with a number of inventive ways to<br> phrase thisi¼Œ but nothing ever sounded right. Yet somehow<br> we ended up pregnant anyway.<br> It s hard not to be pessimistic (especially if you re over<br> thirty) about your ability to conceive. Just as we over-<br> thirties were about to start \"tryingi¼Œ\" a famous French study<br> came out alleging a steady decline of fertility once madame<br> reaches thirty. I remained

calmï¼Œ knowing I could lick this<br>problem with the right book. I therefore went out and<br>bought Dr. Sherman Silber s How to Get Pregnant.<br>In this fascinating bookï¼Œ I learned that even Dr. Silber<br>himself took six panic-filled months to hit the jackpot.<br>This was depressing. If the fertility doctor himself couldn t<br>alter fateï¼Œ how could a lowly lawyer expect to do so? I had<br>visions of financial ruin from repeated medical procedures<br>at an infertility clinicï¼Œ followed by a trip to South America<br>to buy a baby.<br><br>
