Book Description Katharine Millholland may be an heiress, but she works hard for her money as a mergers and acquisitions lawyer in Chicago. When her lover's firm faces a takeover and his niece is killed, it's not hard to find a connection. But Katharine has to do it fast, before she tips the murderer to her intentions, and finds herself next on the list.... From the Publisher PRINCIPAL DEFENSE is the first book in an ongoing series featuring attorney Kate Millholland. What I most like about this book is Kate. I could really relate to her as she was approximately my age, balancing a career and a personal life. Plus I loved that the book was set in and around one of my favorite cities, Chicago. I was in the fortunate position of being able to meet the author, Gini Hartzmark, when the book was first published in 1992 because I was her publicist and got to go to a publication party in Cleveland, where she lived at the time. It was

great fun to meet Gini and her family, friends, and the media and booksellers in Cleveland, where her books are big sellers. Kim Hovey, VP & Director of Publicity
