Worlds of Wonder showcases the range and power of the human imagination, transported across strange worlds, lost civilizations, and brave new realities. Now, with the help of David Gerrold, Hugo and Nebula Award-winning author, readers will learn, step-by-step, how to turn their words into works of wonder. Drawing on a career spanning three decades of writing and teaching, Gerrold also uses examples from numerous classic books and films to support their growth within the genre. Readers will gain insight into the craft as well as practice techniques that will immediately improve their writing as they are charmed and challenged by Gerrold's infectious passion for his craft and profession. Worlds of Wonder will ignite the engines

of readers enthusiasm in ways that will astonish them. \* Written by one of the biggest, most-recognized and most-honored names in the field! \* The science fiction and fantasy genres are currently riding a new wave of popularity
