著者:Jean-Jacques Sempé

出版者:Phaidon Press

出版时间:2009-02-21

装帧:Hardcover

isbn:9780714846736

Most famous in the English-speaking world for his instantly recognizable "New Yorker" covers, Jean-Jacques Sempé has delighted readers in France and beyond with his witty drawings and keen eye for the finer points of the human condition for over 40 years. Now, his sharply observed and beautifully drawn cartoons are available in English for the first time. The pithy captions were translated from the original French by

Anthea Bell, who also translated the Asterix comics into English.
