This authoritative edition of Baudelaire's "Complete Verse" contains "Les Fleurs du mal" (1861), the first great modern work of poetry and one of the few books of poems to become an international bestseller, with "Nouvelles Fleurs du mal" (1868), "Les Aepaves" (1866) and all of Baudelaire's other poetry in verse. The French text is given at the head of the page, while Francis Scarfe's scrupulous and inventive prose translations appear at the foot, making this an ideal edition both for the advanced student and the general reader wishing to tackle the French original with a reliable prose prompt to hand. The companion volume, "The Poems in Prose", contains Baudelaire's prose poems ("Petits Poemes en prose", 1869) and the short novel "La Fanfarlo" (1847), an "extravaganza" written in his early twenties.
