This comprehensive, practical writer's manual is designed to help readers accomplish two goals: 1) improve their writing skills and strategies and 2) learn political science at the same time. The manual considers the different types of papers common to

political science at all levels, at the introductory level, and at the advanced level—exploring the purposes and characteristics of each paper, the steps for writing a successful paper, and typical formats. The volume provides a handbook of style for political science, guide to distance learning and the Internet and writing assignments for all levels. For those interested in improving the political science writing.
