Did you know that an estimated 80% of all life on earth is found in the ocean? Now kids can dive in to discover all of the amazing secrets of the world's oceans in 3-D Explorer: Oceans. In this multidimensional book, they can learn more about the familiar plants and animals of the shoreline and rock pools and uncover the mysteries lurking in the ocean's midnight zone and murky depths. Five spectacular 3-D pop-up panoramas feature clever transparent layers, revealing each ocean zone from the surface to the seafloor. Future marine biologists will be mesmerized by the amazing photos, facts, and artwork.
