出版时间:July 25, 2007

装帧:Hardcover

isbn:9780548191972

King was a Yale man, a ladies' man, a friend of Henry Adams's, and a geologist. While still in his 20s, he began a survey of the 40th parallel, from the Sierra to the Rockies. He had adventures galore and was a natural storyteller. He was also one of the first Americans to climb mountains simply because they were there.
