The Cut "&" Paste Series contains four activity books that are painstakingly structured so that children will have great fun learning through various activities. Children will improve their manipulative skill through the action of cutting, pasting, tracing and

colouring. They also learn to recognise the letters of the alphabet, numbers and simple English words that are useful for their age group. Generally, basic skill for preschool are given due emphasis here. Parents and teachers will find this series suitable for children at the preschool level and also children who just started primary school.
