Science Made Simple! Whenever kids learn something about the world that they didn't know before, that's a discovery! With Little Pirate, kids learn how to make discoveries. When they join Little Pirate on an adventure, they'll wonder, observe, experiment, draw conclusions, and build on what they've discovered. And the more kids discover, the bigger their world gets! Go on an underwater adventure with Little Pirate, Parrot and Mystic. Discover the fascinating world alive under the ocean's surface. Kids will meet turtles, sharks, dolphins and crabs and learn along with Little Pirate what is a fish and what isn't. (It's not as obvious as you may think!) Eleven-spread case bound book with a gatefold back cover and an inset paper wheel that turns to transport Little Pirate into a world of wonder.
