"So much junk has been written, especially in Latin America, about what it means to be a guerrilla. The guerrilla is made into a mythical being who never feels pain and is happy to die at any moment. My book shows the fears and the longings and the pain we felt during our

years underground." These are the words of Omar Cabezas in a recent interview in the New York Times.

Nicaragua is a country where the ideologies of right and left still meet head to head in combat and where the involvement of the United States remains subject to a heated, continuing debate.
