Scotland is famous the world over as a land of beautiful scenery
-- of hills, glens and straths, of misty lochs and tumbling

rivers. And to the visitor, it is a land with much to offer; not only miles of moorland, but Highland Gatherings, arts festivals, romantic castles to explore, uncrowded and unspoilt beaches and charming fishing villages.

Discover Scotland will guide you from Jedburgh to John o Groats; an indispensable handbook packed with information, maps, town plans and splendid colour photographs.
