Lom New Tear s Day until Christmas, our year is filled with special observances and holiday celebrations. Many of the customs we hold dear were given to as by our forefathers, who brouyht the folldore of t&ir native lands with them to America. Over the years, we have enriched our

festivities by adapting their diverse traditions
and making them uniquely our own. Just as our
cherished celebrations tie us to those who came
before us, the woollen cross in
Holidays Remembered - also - give us a glimpse into
their time. These decorations - many of which were
adapted from antique postcards and scraps -- are
destined to become tomorrow's heirlooms, to be
bragged out with other precious keepsakes year
after year. May you be inspired to create your own
holiday collections of fine cross stitch decorations,
and may every celebration you enjoy this year
truly become a holiday to remember!
