For any dialogue between the Orthodox and Roman Catholic churches to be fruitful, we must first understand our differences. *Popes and Patriarchs* covers some of the distinctives in theology and worldview that separate the churches of the East from those of the West, focusing primarily on the claims of papal supremacy. Author Michael Whelton, a convert from Catholicism to Orthodoxy, discusses some of the theological and historical issues that led him to explore the teachings of the Orthodox Church, including the doctrine of original sin, the influence of Medieval scholastic thought on the Western Church, and the modern trend toward evolutionary Christianity. Part II examines in depth the true attitude of the early Eastern saints of the Church toward the papacy, an attitude radically different from that frequently attributed to them by Roman Catholic apologists. A final chapter is devoted to typical questions Roman Catholics raise about the Orthodox Church, including a comprehensive discussion of divorce and remarriage.

作者介绍:

Michael Whelton is a British-born Orthodox writer residing on a fifteen-acre hobby farm in the lush farm country of southwest British Columbia. He is the author of *Two Paths: Papal Monarchy-Collegial Tradition*, *The Pearl: A Handbook for Orthodox Converts*, and *False Gods: Counterfeit Spirituality in an Age of Anxiety*.

评论

很有意思的一本小书，虽然基本上是用二手资料做的。但是一个安立甘宗家庭长大后秘密转投天主教，梵二后将近三十年又转投东正教的作者，可以从中看出颇多心路历程。不过终究不是学者出身，很多论断失之偏颇。关于教宗权力的问题，天主教方面还是要用心回答的，因为真的历史，就现在来看，确实不是“自古以来”。。。
